DETAILED ACTION

1. This Office Action is in response to the applicants' communication received on April 27, 2007.

- 2. Claims 1 and 9-37 are presented for examination.
- 3. The applicants have amended claim 1 and have added new claims 9-37 in the amendment received on April 27, 2007. Claims 2-8 have been cancelled.
- 4. Applicants' arguments with respect to claims 1 and 9-37 have been considered but are deemed to be moot in view of the new grounds of rejection.

Claim Objections

5. Claim 1 is objected to because of the following informalities:

The applicants have amended independent claim 1, however the amendment to this claim does not produce a concrete and useful result. The claim begins with "receiving and Mbean definition file", next the claim "generates" Mbean jar file, and lastly the jar file is placed in a predetermined directory. The claim limitations do not specifically state what happens to the MBean jar file as a result of generating and placing the jar file. It is the opinion of the Examiner that the applicants should kindly consider introducing dependent claims 12, 23, and 29 into independent claim 1 in an effort for the claim to comprise a concrete and useful result.

Therefore, the remaining claims are dependent claims. These claims are also objected to for being dependent upon the above objected to base claim.

Appropriate correction is required.
